**** PUBLIC NOTICE ****

**Instructions For Filing Master Mailing Matrices
In Computer Readable Format**

Effective August 1, 1996

1. The revised Local Rule 1007-2 (effective August 1, 1996) requires that the master mailing matrix be provided to the Clerk in a computer readable format in all cases regardless of size.

Here are the requirements for submitting the master mailing matrix in computer readable format.

If you have any questions or problems regarding these requirements, please call Laurie Ellwood, Automation Support, at (813) 301-5063.

2. What you need is:
 - a) An IBM compatible PC with DOS version 3.1 or higher.
 - b) 3 1/2" or 5 1/4" diskette.
 - c) A program that will produce ASCII text files such as a word processor or text editor, or other programs with the capability of producing output in ASCII format.

NOTE: Many Bankruptcy programs have the capability of producing output in ASCII format.

3. How do you produce these matrices?

a) Simply follow the same instructions as you would to produce a matrix on hard copy:

1. Lists should be typed in either one or three columns. (One is usually easier to type in.) If you are using three columns, Column 1 should start in position 1, Column 2 in position 29, and Column 3 in position 57.
2. Individuals should be listed in last name, first name format.
3. Each name and address must consist of no more than 4 (four) total lines SINGLE SPACE, with at least ONE BLANK LINE between each of the name/address blocks.
4. ZIP codes must be located on the same line as the city and state. This must be the last line of each name/address block. The city and state also NEED to be separated by a comma.
5. Nine-digit ZIP codes should be typed with a hyphen separating the two groups of digits.
6. All states must be two-letter postal abbreviations. Example: correct = CA; wrong = California, Calif. (See the list of abbreviations that follows this notice).
7. Each line of information must be 28 characters or less in length. If you are using two or three columns, do not exceed 28 characters in length for each address line for each column.
8. Entities with more than one address may be listed as many times as necessary to assure proper notice.
9. Do not include the following entities since they will be added automatically by clerk's office staff and retrieved from the system for noticing:
 - * Debtor
 - * Joint Debtor
 - * Case Trustee
 - * Attorney for the Debtor(s)
 - * U.S. Trustee

10. Do not type "attention" lines or account numbers on the last line. If needed, this information must be placed on the second line of the name/address block. (City, State and Zip MUST be on the last line.)
 11. Do not use a header or footer to identify your case! Label the floppy.
- b) Save this data in ASCII format in a file called creditor.scn.
 - c) For Chapter 11 cases, save a separate list of top 20 creditors in ASCII format in a file called creditor.t20.
 - d) Copy or Print the file(s) to a 3 1/2" or 5 1/4" diskette. (This floppy must be formatted using DOS 3.1 or higher.)
 - e) Label the diskette with the case name and file it with the petition.
Example:

John Doe Inc. creditor.scn 1/26/97

- f) Only one case should be included on each floppy. Only one creditor.scn file can be processed from a single floppy.
4. Benefits of submitting creditor matrices in ASCII format on floppy:
- a) You may use Word Perfect, Microsoft Word, Word Star, Professional Write, or any other word processor or editor (edlin, fred, etc.) with the capability of creating ASCII files.
 - b) Many Bankruptcy programs have the capability of producing output in ASCII format.
 - c) You may use other programs which you are currently using to produce schedules, etc. as long as you can produce the ASCII file output. This eliminates duplication of data entry!
 - d) Processing is quicker and more efficient.

5. Updated instructions for filing master mailing matrices in computer readable format will be maintained at the Court's intake counters in Jacksonville, Orlando and Tampa, on PACER and on the Court's Internet home page at <http://www.flmb.uscourts.gov>.

GLOSSARY

ASCII - AMERICAN STANDARD CODE FOR INFORMATION INTERCHANGE IS ONE OF THE STANDARD FORMATS FOR REPRESENTING CHARACTERS. IT IS USEFUL WHEN FILES ARE SHARED BETWEEN PROGRAMS. A TEXT FILE IS IN ASCII FORMAT.

Using Word Perfect to save the document as ASCII file:

1. Press Text in/out (Ctrl-F5)
2. Select DOS Text (1)
3. Then select save (1) to save the file in DOS text format. (ASCII.)
4. Type in Drive letter A:\ or B:\ "creditor.scn"

Creating a matrix disk using a Bankruptcy program:

NOTE: Some Bankruptcy programs differ. If these instructions do not apply to the package you are using, contact the software vendor for instructions. If technical support is unavailable, please call Chris Muratore, Systems Manager, at (813) 301-5103.

1. Make sure your software is configured to print in text mode (not graphics).
2. Select print the to disk option.
3. Place a blank formatted disk into your floppy drive.
4. Print the matrix.
5. Type "A:\creditor.scn" or "B:\creditor.scn" when prompted for a file name.

Using a Windows based program to create an ASCII file:

1. Choose File, Save As
2. Type in A:\creditor.scn or B:\creditor.scn
3. Choose a File type of ASCII, Text Only, or MS-DOS Text.
